Viva 330

The new feed pan for successful broiler production

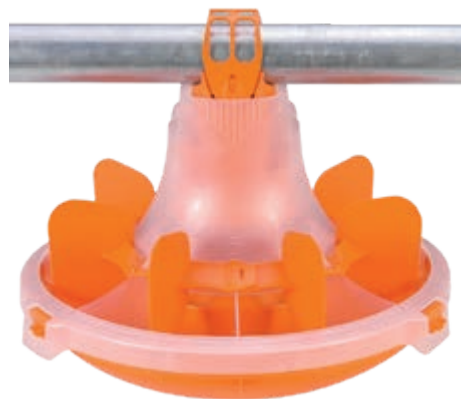

Viva 330 – perfect for broiler growing

Viva 330 is a feed pan for broiler production that has been newly developed by Big Dutchman.

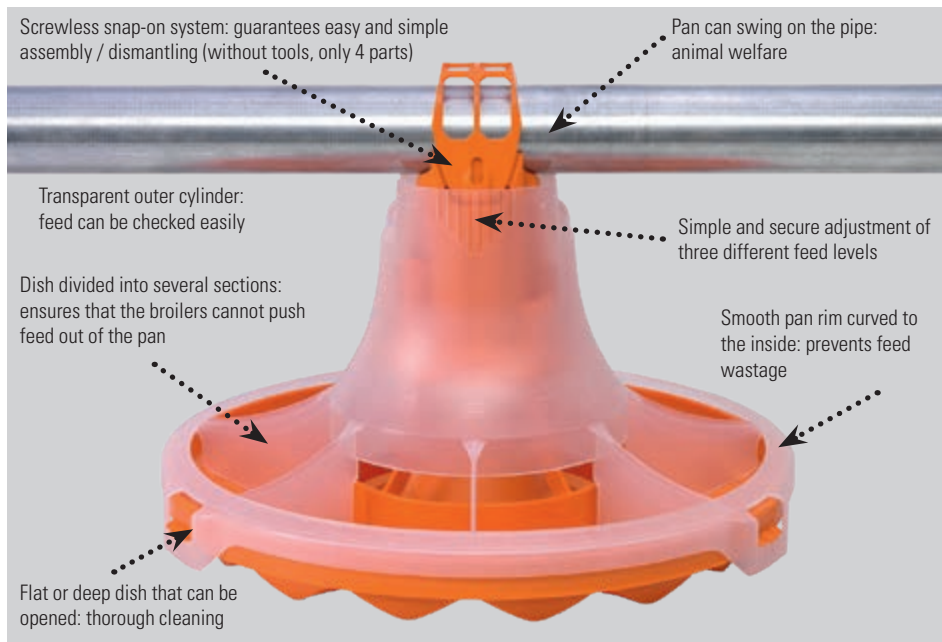

The pan not only satisfies the needs of day-old chicks but also those of heavy birds during the final grow-out period. The following points are essential for successful broiler rearing:

- easy access to feed at any age;
- reduced feed wastage;
- simple, thorough cleaning;
- fast assembly.

Viva 330 fulfils all of these requirements optimally. You can also select either a deep or a flat dish. Let our experts advise you on how to find the best option for your individual needs.

An additional chick stop (optional) keeps the birds out of the pan. It is easy to add and to remove.

Main advantages

- ✓ the automatic 360° flooding mechanism ensures a high feed level in the pan for an ideal start of the day-old chicks;
- ✓ the flooding mechanism closes automatically when the pans are lifted, lowering the feed level and reducing feed wastage to a minimum;
- ✓ there are no barriers, feed is easily accessible for birds of every age;
- ✓ the pan is made of high-quality, UV-resistant plastic;
- ✓ the pan can be cleaned thoroughly with a high-pressure cleaner;
- ✓ attractive price : performance ratio.

Reference values and technical specifications

- Hopper with feed container content approx. 115 L / 75 kg
- Extension for feed hopper content approx. 38 L / 25 kg
- Maximum system length 150 m
- Feed pipe with 2, 3, 4 holes diam. 45 mm
- System length 3000 mm + sleeve coupling
- Drive unit 0.37/0.55 kW, 230/400 V, 50/60 Hz, 3 phases, 325 rpm
- with gear motor special voltages upon request
- Conveying capacity approx. 450 kg/h
- Pellet size up to 4 mm
- Suspension central ceiling winch, manual or with motor

Broiler growing – ad libitum feeding

- 1 feed line per 4 to 5 m house width, i.e.
- 9 to 12 m house width → 2 feed lines
- 12 to 15 m house width → 3 feed lines
- 15 to 18 m house width → 4 feed lines

Final weight Birds/pan

up to 1.5 kg	approx. 100
up to 2.0 kg	approx. 85
up to 2.5 kg	approx. 70
up to 3.0 kg	approx. 66
up to 3.5 kg	approx. 55

These figures are average values and may vary depending on the breed, stocking density and climate. Additionally, regional reference values must be considered.
